Command Centre

C201311

Product description

Command Centre is the powerful software at the heart of Gallagher's integrated security solutions, a centralized platform that gives you unparalleled control of every aspect of your site. Command Centre provides the ultimate solution to manage your people, site, business and building.
People management

- Intelligent access control
- Easy credential management
- Smooth visitor and contractor management
- Powerful emergency response

Site management

- Effective site monitoring
- Robust perimeter security
- Advanced site management and business management reporting
- Real-time alarm management

Business management

- Easily manage compliance
- Pro-actively manage site health and safety

Building management

- Reduce energy costs
- Identify critical faults early
- Support modern work environments

With you all the way
Fully scalable and supported by continuous investment in research and development, Command Centre will always be ready to support your future growth and changing security requirements.
From perimeter solutions, intelligent access control and building management, right through to critical sites with some of today's highest security requirements, Command Centre is designed with your people, site, business and building management in mind.
